

Northeast Ohio Flight Information Exchange (NEOFIX)
Stakeholder Meeting
Friday, September 27, 2024 at 9:30 AM (EST)

Stakeholders: <https://bw-centers-tech-partnerships.org/members-supporters>

NEOFIX Site: <https://oh-fix.com>

Minutes

- Slides were presented and shared with stakeholders. Strategic sensor placement, by type, is articulated in the slides.
- Stakeholders were provided a planning template to calculate future sensor placements.
- **Open Discussion on Challenges:**
 - Differentiating ignorance and threats.
 - Universal consent to monitor.
 - Prioritization challenges relative to safety and threat assessment (i.e., ground intercept team).
 - Local buy-in relative to drone use remains the top priority.
- **Open Discussion on Opportunities:**
 - The FAA opened the public comment period for Part 108 feedback.
 - Drones for wildlife mitigation at General Aviation (GA) airports, defense communities/perimeters, and controlled environments.
 - Experiment with what Spectrum congestion looks like relative to AAM.
 - Potential sensor placement at the zoo in support of the Cleveland Metroparks.

Action Plan

- Localized completion of the provided planning template.
- NEOFIX accounts.
- Sensor placement and initial feedback.

Next Meeting

The next meeting is pending.
